About

Hello, I'm Sahitya Neupane. I'm a self-learnt front-end developer based in Nepal. I'm currently working as web developer (Front-end Developer). Building websites is something I enjoy doing. I learn to solve different real-life problems in order to improve my skills, while making a significant contribution to the success of the company.

Education History

2014 - 2018 A.D - Mount Everest Secondary School (SEE)

2018 - 2020 A.D - Arniko Awasiya Secondary School (+2 at Computer Science)

Projects

🔗 **Weather Application**

This application can show you the real time weather information and the forecast too. This project has been made using the openweather api.

🔗 **SpaceX Clone**

This is the clone website of the spaceX website (only home page has been cloned).

🔗 **ToDo LIst**

This application will help you to save the 5 different tasks.

🔗 **Calculator**

This is the calculator application where you can do the simple calculation like plus, minus, division and multiplication.

🔗 **Stop Watch**

This application can help you to reset time and stop it.

Over the past few months, I have been involved in lot of projects. You can know more about my project in my website.
